COMPANY
PROFILE

CONTENTS

WHO WE ARE?

WE ARE NK SOFTWARE (formerly A&T Asia Technology), one of the leading technology companies based in Vietnam. We specialize in providing software solutions for businesses to leverage the opportunities in the Industry 4.0 era. Our company was founded in 2019 by experienced leaders who have held CTO positions in large companies and have extensive expertise operating in Singapore and Japan. At NK Software, we take pride in our long-standing partnerships with clients across various sectors, including e-commerce, manufacturing, financial services, healthcare, and more.
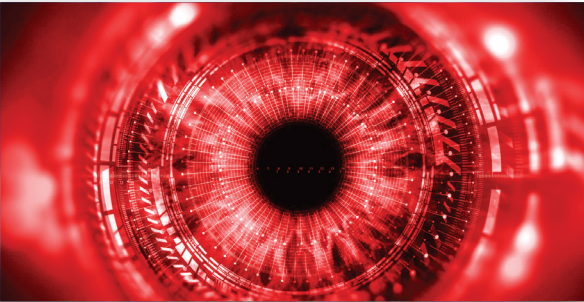

VISION

The company aims to become one of the top leading technology companies in Vietnam in the field of IT outsourcing and provide more effective technology solutions to businesses in Asia with minimal cost.
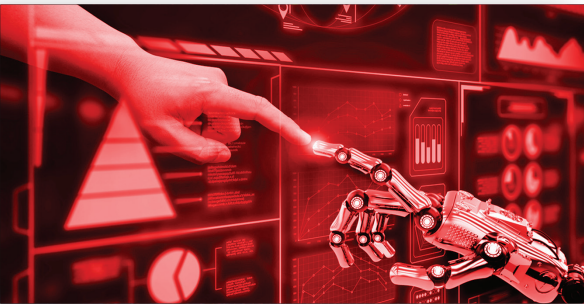

MISSION

FOR CUSTOMERS:

Providing breakthrough and high-standard technology products at a minimum cost and with the fastest delivery speed. Our desired outcome is to achieve customer satisfaction.

FOR EMPLOYEES:

Creating a dynamic, creative and open working environment that helps young people become more passionate and fulfilled with their career choices.
